

Embodying conscious femininity

A Women's Intensive for Body & Soul

We live in a time of significant world change. According to Robert Johnson, when Carl Jung was asked "Will we make it?" he always replied, "If enough individuals will do their inner work."

Power, prestige, fame and fortune drive our outer world to the brink of destruction. When we turn inward, we are challenged to discover our own feelings, to know what we need and what we value. We discover the courage to speak with our authentic voice. To be aware of one's own feelings, needs, and values and to have the courage to act on them is the essence of conscious femininity.

In this workshop we enter the inner world of dreams and symbols. With soulful movement, authentic voice, mask work, creative expression, myth, and ritual, we access the inner world of our unconscious. The safety of the temenos (sacred space) allows for the healing of our old wounds which creates space for the emergence of new energies. This workshop is suited for all women, health professionals and laypersons alike.

This workshop is based on the *BodySoul Rhythms®* work of Marion Woodman, Ann Skinner, and Mary Hamilton. 41 CEU's are available for LCSW, MFT and RN's for a small fee.

Linda Kawer, LCSW and Sherry Wheaton, MD, weave their disciplines, varied training, and experience together as they explore the meaning of conscious femininity in our inner and outer worlds. Using their shared knowledge of symbol and dream interpretation as well as their experience with emotional and physical process, they bring their collective wisdom and skills to this. Both have completed the BodySoul Rhythms® Leadership Training Program through the Marion Woodman Foundation (<http://www.mwoodmanfoundation.org>). This is a Marion Woodman Affiliated Workshop.
